SUMMARY

B.Tech Electronics and Communication Engineering student at Mahindra University with hands-on experience in Python, SQL, JavaScript, HTML, CSS, React, data analytics, machine learning, ETL, PostgreSQL, Power BI, Excel, and automation. Experienced in data cleaning, exploratory analysis, dashboard development, automated workflows, ML-based applications, and responsive web development.

EDUCATION

Mahindra University — B.Tech Electronics and Communication Engineering • GPA: 6.01	Aug 2023–Present
Tirumala Junior College — Intermediate (MPC) • Score: 929/1000	Jun 2021–May 2023
Bhashyam High School — SSC • Score: 597/600	May 2020–Jun 2021

TECHNICAL SKILLS

Programming Languages: Python, SQL, C, JavaScript, TypeScript, HTML, CSS
Data & Analytics: Pandas, NumPy, PostgreSQL, SQLAlchemy, Scikit-learn, Prophet, Power BI, Excel
Analytics: Data Cleaning, Data Wrangling, EDA, ETL, Data Validation, KPI Reporting, Business Analytics
Machine Learning: Machine Learning, Preprocessing, Feature Engineering, ML Prediction
Web Development: React.js, React Router, JavaScript, TypeScript, HTML, CSS
Tools: Git, GitHub, VS Code, Jupyter, n8n, BeautifulSoup, Requests, Selenium
Core Subjects: Data Structures & Algorithms, DBMS, OOP, Computer Networks, Operating Systems, Software Engineering, Machine Learning, Artificial Intelligence, Data Analytics, Web Development

EXPERIENCE

Data Analyst Intern — Venture Launcher Remote • Analyzed, cleaned, and transformed large-scale business datasets using Python, SQL, and Excel; performed EDA to identify trends, patterns, and actionable insights. • Built automated Python workflows for data extraction, web scraping, lead generation, data processing, and process optimization. • Created KPI reports and interactive Power BI dashboards; applied data validation and quality checks to improve reporting reliability. • Collaborated with cross-functional teams to translate business requirements into practical analytics solutions.	Jun 2026–Aug 2026
Front-End Developer Intern — Zetheta Algorithms Pvt. Ltd. Remote • Built responsive React applications using JavaScript, TypeScript, HTML, CSS, and reusable component-based architecture. • Developed analytics dashboards and fintech-focused applications with state management, UI integration, and performance optimization.	Jun 2026–Aug 2026

PROJECTS

NEXUS AI · Autonomous Enterprise Intelligence Platform Python, Pandas, NumPy, Scikit-learn, SQL, Streamlit, Power BI · Built an autonomous data intelligence platform that transforms raw business datasets into validated insights, KPI reporting, anomaly detection, predictive analytics, and what-if decision simulations.
End-to-End Sales Analytics Platform Python, PostgreSQL, SQL, Pandas, NumPy, SQLAlchemy, Power BI · Processed 1M+ sales records; built ETL pipelines, SQL KPI analysis for Revenue, Profit, Retention, and Regional Performance, automated workflows, and Power BI dashboards.
Smart Loan Platform Python, SQL, Machine Learning, Streamlit, PostgreSQL, Scikit-learn · Built an AI-powered loan assessment platform with preprocessing, feature engineering, ML prediction, PostgreSQL workflows, and an interactive Streamlit dashboard.
Startup Lead Finder Python, BeautifulSoup, Selenium, Pandas, Automation · Automated startup lead extraction, validation, duplicate removal, and CSV/Excel exports from multiple public sources.
React User Management Portal React.js, JavaScript, CSS, React Router · Developed a responsive multi-page React application with authentication, profile management, reusable components, routing, and performance optimization.

TRAINING

IoT-Network Specialist · Reliance Foundation (Nov-Dec 2025) | JavaScript for Beginners · Udemy (Sep 2025) | Gen AI · Infosys (Jun-Jul 2025)
